South Region Expansion Update - 2025

NovaMart Pvt Ltd - Internal document (fictional, for DataMind demo)

New stores

NovaMart opened two new stores in the South region in February 2025: NovaMart Whitefield in Bengaluru (mall format, opened 10 February 2025) and NovaMart T Nagar in Chennai (high-street format, opened 24 February 2025). Chennai was a new city for NovaMart.

Rationale

Market research showed that South region customers were travelling long distances to the Koramangala and Banjara Hills stores, and online penetration in Bengaluru was high. The new stores were expected to lift South order volume by 25 to 30 percent.

Early performance

Since opening, South region order volume has grown faster than any other region, and South overtook West as NovaMart's largest region by order count in 2025. The South Store Opening Offers campaign (10 February to 15 March 2025, INR 9 lakh) supported the launches.

Next steps

A third South store in Kochi is under evaluation for 2026.
